

TRACES

TRACES

a collection designed by Stacy Garcia

Inspired by infinite and intricate formations, Traces explores the deconstruction and transformation of the earth's innate variations.

Showcasing beautiful biomorphic and organic abstractions, each design explores the intersections of light and shadow through fractal patterning and delicate layers.

Taking cues from sedimentary rock forms and arid lands, the palette consists of soft sumptuous shades of beige complemented with decadent browns and cool greys. With harmonious hues and ethereal arrangements,

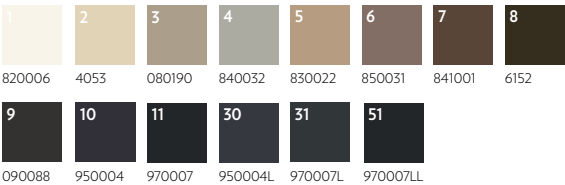

Traces unfolds the otherwise overlooked details of the ever evolving world.

Product Guide

Traces is available in Definity, PDI and CYP constructions. Each product type utilizes a different manufacturing process which can yield variations in color and texture. Please refer to the guide below for specific color information.

Definity

Durkan's innovative Definity technology is available in up to 12 colors and features our unique precision sculpted technology which explores and emphasizes dimensional effects.

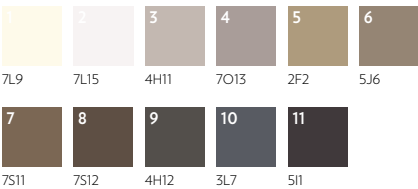

Shown, right and opposite page: QTWGA49822

PDI

Durkan's Precision Dye Injected (PDI) construction offers a range of patterns available in 12 colors.

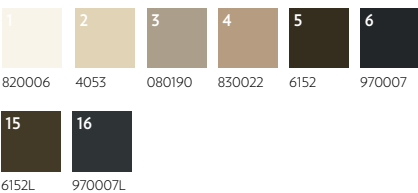

Shown, right: GA48791

CYP

Durkan's Computer Yarn Placement (CYP) construction offers a range of patterns available in 6 colors.
