Reminiscent of the grand architect of our time, the Grand Architect Collection beautifully integrates all that nature has to offer into a collection that reflects the timeless style of stained glass windows. Created to both provide a barrier from the elements, yet bring the beauty of nature indoors, stained glass windows provide colorful light that plays softly on the surfaces it touches. The Grand Architect Collection captures the complex yet colorful, abstract yet structured, color and sometimes texture of stained glass that is used to diffuse and soften the reflection of the light of nature. Vivid greens and rich golds with touches of white and amber infuse the Grand Architect Collection and in the end conventionalize the natural flora patterns.
