

TONAL + ACCENT PATTERNS

Making the process SIMPLE!

Since 95% of the aircraft carpets we produce are custom colors and patterns designed to coordinate with the interior components of the aircraft, we have developed a sampling process that is easy and designed to produce exactly what you desire.

In 3 EASY Steps

1

Select a Pattern

There are three ways to determine the design of your aviation carpet:

- Select one of our existing patterns in this binder or online
- Work with our design team to create your own unique look using our easy to use, online design resources
- Supply your own proprietary design

2

Add Color

Whether you're designing your own carpet or selecting one of our existing patterns, you can create your own look through color. With 284 solution-dyed colors to choose from, your creative possibilities are virtually limitless. If one of our colors doesn't fit the bill, we can merge fibers to create new colors or we can create a custom dye to ensure you get just the right look. And using our online design tools you can re-colorize your pattern instantly, to be sure you get just the look you are searching for.

3

Order It

Now that the creative process is complete and you've received your sample, it's time to order. Here is where your Mohawk Group aviation representative will assist you. Your representative will make sure you get the right product, at the right price, and that it arrives where you need it, when you need it.

LPD01425 Blue Lime Contrail

 Mohawk Group
